Truthful Gems From His Letter of Acceptance.

It is our duty to avoid stealing and not to kill.

A war of conquest is as unwise as it is unrighteous.

It is not necessary to own the people in order to trade with them.

The highest obligation of this nation is to be true to itself. The command "Go ye into all

the world and preach the Gospel" has no gatling gun attachment. We cannot repudiate the prin-

ciple of self-government in the Philippines without weakening that principle here. Can it be our duty to kill those;

who, following the example of our forefathers, love liberty well enough to fight for it?

The safety of the nation lies not in its armies, fleets and forts, but in the spirit which prizes liberty as the heritage of all men.

Boasting is the subterfuge of the inveterate, who, lacking the courage to oppose error, seeks plausible excuse for supporting it.

Better a thousand times that our flag in the Orient give way to a flag representing the idea of selfgovernment than that the flag of this republic should become the flag of an empire.

It was God Himself who placed in every human heart the love of liberty. He never made a race of people so low in the scale of civilization or intelligence that it would welcome a foreign master.

Is the sunlight of full citizenship to be enjoyed by the people of the United States, and the twilight of semi-citizenship endured by the people of Porto Rico, while the thick darkness of perpetual vassalage covers the Philippines!

Democracy strives for a civilization in which every member of society will share according to its merits. No man has a right to expect from society more than a gether very comfortably as long as fair compensation for the service which he renders to society.

If this nation surrenders its belief in the universal application rest of the world, of the principles set forth in the declaration of independence, it will lose the prestige and influence which it has enjoyed among the nations as an exponent of popular government.

Reflections of a Batchelor.

It's rare love that has no waning Probaly if women knew what a rare lelight it is for men to be able to respect them, more of them would try to win men's respect,

The average woman would rather have you to tell her you love her for the way her hair looks than to have you admire her for some noble deed.

About the keenest pleasure any woman can know is the wretched trick of taking a man away from her friend just to make him miserable.

There is no nastiness in the world that innocense dreams of, but, thank God, there is more goodness in the world than vice can comprehend, Passion forgets always; love never.

There is a great deal of love without marriage, but there is a great deal more of marriage without love. Unless a man goes around preaching a

Democrats May Control Congress,

That the next Senate of the United States, coming in on the 4th of March. 1901, will be Democratic or controlled by the united opposition to the Re publicans is a strong probability, according to the calculations and claims of the Democratic leaders at congressional campaign committee headquarters in this city.

Secretary James Kerr, than whom there is no shrewder nor more careful political reckoner in the country, is positive in the assertion that if Bryan is elected both houses of Congress will

Chairman Richardson and Secretary Kerr are in close communication with every congressional district in the country, from, which they are receiving daily advices. They are familiar with the political situation in every State and their most conservative calculations give the Democrats or the opposition to the Republicans more than enough additional Senatorships as a result of the forthcoming November elections to capture the United States Senate.

A change of nine Senators will make the Senate a tie. With the election of a Democratic Vice-President this change of nine Senators will be sufflcient to control.

The Republicans at present have a majority of eighteen, but there will be thirty-three newly and re-elected Senators to take their seats next 4th of glance from her eye. March, barring contest of title. Of this number the Democrats count with almost an absolute certainty on a gain of seven, with a doubtful column of six from which the probability is strong they will add the necessary two or three Senatorships to obtain the majority in the Senate.

The States to return newly elected Senators, some of whom have already been chosen, are: Alabama, Arkansas, Colorado, Rhode Island, Georgia, Idaho, Illinois, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Mississippi, Montana (two) Nebraska (two,) Newhampshire, North Carolina, Oregon, Pennsylvania, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, West Virgin

ia, Virginia, Wyoming and Delaware. The States from which the Democrats are assured gains to the Senate are; Colorado, Idaho, Montana (two,) Nebraska, Utah and Delaware.

The doubtful States from which sufficient Democratic gains are expected to be added to the above are: Illinois. Kansas, Minnesota, West Virginia, Wyoming and Pennsylvania.

In this class it is felt that Pennsylvania should be included, because in that State the Republican factions are even farther apart than last year when they defeated Quay. Germans For Bryan.

The German edition of the New York Journal has for some time past been printing a coupon daily, which Germans opposed to imperialism and militarism were asked to sign and also to record their prefrence for President and these issues alone. The result is surprising. Thousands upon thousands of coupons have been returned, in a majority of which the signers have declared that, although they voted for McKinley in 1896, they will vote this year for Bryan, because of their violent opposition to imperialism and
